Annuities issued by
Athene Annuity & Life Assurance Company of New York

**FOR PRODUCER USE ONLY. NOT TO BE USED WITH THE OFFER OR SALE OF ANNUITIES.
Available in New York only. See annuity contract for full details.**

Product Description

The ATHENE MaxRate Multi-Year Guarantee Annuity (MYG) is a modified single premium deferred annuity contract that offers clients asset growth they can rely on with guaranteed interest rates.

In addition, ATHENE MaxRate with Enhanced Liquidity offers clients a guaranteed interest rate, plus the ability to access a portion of their accumulation value without withdrawal charges.

Prior to the end of the guarantee period, clients have a 30-day window to request a partial withdrawal, full surrender or elect an income option without incurring a market value adjustment or any withdrawal charges. If the company does not receive a request to the contrary during the 30-day window, the annuity will automatically begin a new 5 year guarantee period with a new guaranteed interest rate. In addition, for client convenience, five additional premium deposits are allowed in the first six months.

This MYG series offers a simple product design so your customers can choose the ATHENE MaxRate product that best meets their needs - either one that maximizes the rate driven or one that strikes a balance between rate and liquidity.

Target Client

- Looking for a safe place to accumulate money.
- Seeking highest guaranteed interest rate available.
- Willing to trade liquidity for the opportunity to earn a higher rate of return — enhanced liquidity is available to access a portion of accumulation value.
- Comfortable committing a portion of their money for the length of the duration selected or longer.

Interest Rate Guarantees

Available for the initial guarantee period and any subsequent guarantee periods. The guaranteed interest rate will vary depending on which guarantee period is selected; however, the rate will never be less than 1%. The company will declare a new rate for each subsequent guarantee period.

During the 30-day window at the end of the guarantee period, the owner can:

- Accept the new interest rate and begin a new guarantee period not to exceed five years (no action required); or
- Request a partial withdrawal, full surrender or elect an income option without incurring a market value adjustment or any withdrawal charges.

If the owner does not notify the company of a decision, the contract will automatically begin a new 5 year guarantee period.

Issue Ages (based on actual age)

0-80 Q and NQ

Initial Premium

\$10,000 minimum, \$1,000,000 maximum
Larger amounts considered with company approval

Continued

**FOR PRODUCER USE ONLY. NOT TO BE USED WITH THE OFFER OR SALE OF ANNUITIES.
Available in New York only. See annuity contract for full details.**

Additional Premium Payments Minimum \$500. Allows up to 5 additional deposits in the first 6 months. Subsequent premium payments do not trigger a separate withdrawal charge schedule. Accumulation value, including subsequent premium payments, will renew on the same schedule as the base policy.

Withdrawal Charges (%) 5 Year Contract: 7, 6, 5, 4, 3
7 Year Contract: 7, 6, 5, 4, 3, 2, 1

A reduced withdrawal charge schedule applies to subsequent 5 year guarantee periods. The renewal withdrawal charges for both the 5 and 7 year contracts are as follows: 5, 4, 3, 2, 1

Maximum Subsequent Guarantee Period Withdrawal Charges
Based on Attained Age (age on last contract anniversary)

Attained Age	Maximum Withdrawal Charge
94	4
95	3
96	2
97	1
98-100	0

Free Out During the last 30 days of each guarantee period the owner may request a partial withdrawal, full surrender or elect an income option without incurring a market value adjustment or any withdrawal charges. The owner will receive the accumulation value during this time. (Note: withdrawals prior to age 59½ may be subject to a 10% IRS penalty.)

Death Benefit The beneficiary will be paid the full accumulation value as of the date of death.

Market Value Adjustment An adjustment is made to the accumulation value when withdrawal charges are assessed. The MVA reflects the change in interest rates from the time the guarantee period began to the time the withdrawal is made. The MVA may increase or decrease the accumulation value. The amount of MVA, positive or negative, will not be greater than the amount of the Withdrawal Charge.

Income Options Available after first contract year. Income options are based on the full accumulation value. Options available include:

- Fixed period
- Life income
- Life income with certain periods of 10 or 20 years

Required Minimum Distributions **ATHENE MaxRate** RMDs will be treated as any other withdrawal and subject to withdrawal charges and market value adjustment, unless taken during the 30-day window (free out period) prior to the end of the guarantee period.

ATHENE MaxRate Enhanced Liquidity Required Minimum Distribution (RMD) Waiver: Withdrawal Charge and the MVA will be waived on partial withdrawals of Required Minimum Distributions as defined in the Internal Revenue Code and regulations as amended.

**ATHENE
MaxRate
Enhanced
Liquidity**

Clients can select Enhanced Liquidity, which can be used to help offset future expenses should they arise through the following waivers. Please note: if multiple waivers apply, the waiver that provides for the highest free withdrawal will be used, not the sum of all applicable waivers. A withdrawal taken in excess of the applicable waiver may be subject to a withdrawal charge and market value adjustment.

10% Free Waiver - After the first contract year, up to 10% of the accumulation value as of the last contract anniversary may be withdrawn with no withdrawal charge or market value adjustment.

- No benefit is payable under this provision during the first contract year.

Minimum Partial Withdrawal Amount – \$500 **Minimum Systematic Withdrawal** – \$100

Substantially Equal Periodic Payments (SEPP) Waiver - SEPP can be withdrawn with no withdrawal charge or market value adjustment. Withdrawals made under this provision must be made annually and must continue for at least five years or the age of 59½.

Confinement Waiver - After the first contract year, withdrawal charge and the market value adjustment will be waived if at the time of withdrawal:

- Owner or one of the joint owners of the annuity is confined to a long term care facility or hospital due to injury or sickness
- The confinement began while the contract was in force
- The confinement has lasted for 90 consecutive days

Terminal Illness Waiver: In any contract year after the first, a withdrawal charge and market value adjustment will be waived if owner or joint owner is terminally ill. Terminally Ill means as a result of a sickness or injury:

- Your physician certifies that you are not expected to live for more than 12 months
- You were expected to live more than 12 months as of the contract date of the contract

Required Minimum Distribution (RMD) Waiver: Required Minimum Distributions (RMD's) generally are minimum amounts that a retirement plan account owner must withdraw annually to meet Internal Revenue Service requirements. The Withdrawal Charge and the MVA will be waived on partial withdrawals of Required Minimum Distributions as defined in the Internal Revenue Code and regulations as amended.

Suitability

Careful consideration should be made to help determine if an annuity is right for your client. An annuity might not be right for every person or every situation. Please consider your client's financial objectives and tax status before recommending any annuity.

Athene Annuity NY expects all producers to follow annuity sales suitability practices. Form N1000-NY is the company's required suitability form. It must be completed and signed by the producer and client and returned with the application and other point-of-sale paperwork.
