Underwriting Approach

As the name implies, Rapid Decision (RD) Term is designed to provide you with very quick turn around time on your routine term life cases. **RD Term is not a simplified issue or “easy” issue product.** It is competitively priced and fully underwritten on a non-medical basis (a full application but no para-medical examination or blood or urine samples).

Fidelity Life’s industry leading innovation allows your customers to promptly complete their purchase and allows your placement ratio and timely commission payments to meet your business objectives.

Since routine ordering of traditional evidence, such as examinations, blood/urine samples and physician’s reports, is not part of the RD Term process, cases which require these kinds of information will be declined.³ To avoid this, it is important that you pre-qualify your clients.

Does your client qualify for RD Term?

Answer these simple questions to find out.

1. My client is a U.S. citizen or has permanent resident status (a green card).
2. My client has a valid, active U.S. driver’s license and a good driving record.
3. My client lives and, if employed, works in the United States.
4. My client (if ages 56 and up) has seen a primary care physician within the past 5 years.
5. My client is not disabled or receiving disability benefits.
6. My client has not been rated or denied coverage by another life company.
7. My client has no medical history which would require an APS or Blood/Urine samples.
8. My client has a valid Social Security number.

We do not offer medical ratings on RD Term.³ If your client has a medical or other condition which would require a rating, RD Term is not available. The following is a list of some of the more common conditions that we would or would not accept.

More than 2 total/combined medications for a single condition or combinations of impairments may result in an adverse decision not indicated on this page.

Would Accept

- anxiety (single medication, no disability)
- asthma (single non-steroid medication, no ER or hospital visits)
- depression (single non-psychotic medication)
- hypertension (controlled, up to 2 medications)
- cholesterol (up to 2 medications)

Would Not Accept

- cancer
- diabetes
- heart attack
- heart bypass/angioplasty
- sleep apnea
