Faster Approvals = Quicker Commissions

Since 1896, we've focused on catering to the needs of Middle Americans. And, thanks to Fidelity Life's innovative Rapid Decision process, it's now more profitable than ever to write middle market cases for homeowners who have taken out or refinanced a mortgage in the last 37 months for loans up to \$300,000 and 13 months for loans over \$300,000.

Our technologically advanced, web-based underwriting lets you get approvals in minutes or hours, not weeks or months. Applications and answers to health questions can be completed electronically. MIB, Pharmacy and MVR records are reviewed and, if the information is consistent, policies can be issued in 24 to 48 hours.¹

With less administrative tracking and commissions paid on a weekly basis, the benefits of Rapid Decision speak for themselves in terms of productivity and profitability.

Better Coverage = More Attractive Product

While most mortgage insurers set a maximum coverage limit at \$300,000 on their term policies, Fidelity Life Association is able to issue mortgage coverage up to \$500,000 depending on age without a medical exam—an amount that allows the customer the flexibility to select the coverage amount that's right for them.

Rapid Decision Mortgage Term can be issued for guaranteed level premium periods of 15, 20, 30—even 40 years. And its value to customers can be further enhanced by the inclusion of any number of optional riders.²

These are exceptional terms for a fully-underwritten product backed by the financial strength and security of an A- (Excellent) rating from A.M. Best.³
